## COUNTRY NEWS.

Bristol, July 12.

Y<sup>e</sup> Captain of a Ship arriv'd here from Philadelphia on Saturday Night last, we have Advice, that they are very busy in raising Troops for the secret Expedition, which is generally thought there to be design'd against Cuba; that the young Men enter in great Numbers; and that

Governor has propos'd the laying a Tax on all the Masters of such young Men may sustain by their going into his Majesty's Service.

Monday Night arriv'd here Capt. Wilson, and Richard Wallis, chief Mate; belonging to the two Ships, Bideford and Dursley formerly men-

to have been taken and carry'd into St. Seba-

stian by a Spanish Privateer; from whence they made

Escape (with about 36 more English Sailors) to

France.

They confirm the unwelcome News of another fine

Baltick Merchant, commanded by Capt.

aniel Halloway, belonging to this Port, being

taken by a Privateer near the Island of Scilly,

brought into St. Sebastian last Sunday Forenoon.

Privateer had 12 Carriage Guns and 4 Swivels,

commanded by a Frenchman, and manag'd with 70

Sailors and 56 Spaniards. The Baltick Mer-

chant had 20 Sailors, viz. 16 Englishmen and 4

Spaniards, who they took on board when they

were from South Carolina, thro' the Want of Hands.

Baltick being a stout Ship fought the Privateer

gallant brave Manner 7 Glasses or 3 Hours and

15 Minutes; and had not the Sailors been so few in Num-

ber they had certainly took the Privateer. At the

Broadside the Baltick Merchant fir'd, the Pri-

vateer off, and view'd her home Time, supposi-

ng 'twas thought, to be a Ship of greater Force

than they at first imagin'd; but perceiving her Sails

up in the Wind, and not well manag'd, 'twas

thought they guess'd right as to her being thin of

Men, and accordingly began to ply her Guns pre-

sumely; and at length came boldly up and boarded

Baltick with a great Number of Hands, arm'd

Sword and Pistol, and oblig'd the Englishmen

to Quarter, and strike their Colours. Eight

Men were kill'd during the Action on board the

Privateer, and two on board the Baltick.

There was on board the Baltick Merchant, Colonel

Hawkins, his Lady, two Children, and two other

English Ladies, &c. who came over Passengers in or-

settled in England. The Colonel stood Centry

the four Spaniards during the Engagement, with

his own Sword, while they were employ'd in steer-

ing the Ship; and when the Lieutenant of the Pri-

vateer first boarded, he begg'd for Quarter, and de-

died him his Sword, on which the Lieutenant pro-

vided him good Quarter, but it prov'd unfortunately

reverse; for while he was talking to the Lieute-

nant one of the French Sailors who stood behind,

him on the Shoulder, and the Colonel looking

about, the cowardly Villain shot him thro'

Head with a Pistol, and his Brains gush'd out in

the Lieutenant; and this French Murderer

had also shot Capt. Halloway, had he not been

saved by the said Lieutenant, who was in some

danger at this perfidious rash Action of the French

Privateer. He was clapp'd in Irons, and on his Arrival

at St. Sebastian committed Prisoner to the Castle, and

it is made but he'll be hang'd.

Weymouth, July 12. Presently stripp'd the Colonel, who had three

Watches, and a Diamond Ring of about 30 L.

besides Money and other valuable Effects on

him, and before he was quite dead threw him over-

board.

Lady and Family knew nothing of his Misfor-

tune (thinking he was on board the Privateer) till

arrived at St. Sebastian, where she was lodg'd in

a Tavern kept by an Irish Renegado. But when this

fortune was rumour'd all over the Town, and her

name came to the Knowledge of some Spanish Ladies,

who visited by Abundance of them, who treated

and the rest with her with great Civility and Hu-

mity, and remov'd her and Family into one of their

own Houses,

Capt. Wilson, and Richard Wallis the Chief Mate, made their Escape with much Difficulty; their first setting out was under the Cover of two Friars, who were going to a neighbouring Monastery from St. Sebastian; at every Place they pass'd thro' their Passes were requir'd; and it happen'd luckily for them, that passing thro' one Place, an Officer on board the Privateer who took their Ships saw them, and oblig'd them to go back to his House, where he forc'd them to lodge, treated them in a kind Manner, and was so civil as to conduct them thro' several Guards, till he shew'd them the Place that parted France from Spain; but when they came to the last Passage in order to take Water to go over to Bayonne, the soldiers were more strict, and because they had no Pass, told them they must go back to St. Sebastian; and returning back to a House for that Purpose, several Spanish Women begg'd earnestly of the Soldiers to let them go over; and Capt. Wilson seconded their Intreaty with a Guinea and three Pounds, they only took the latter, a Knife and Handkerchief, and suffer'd them to go over, where they took Passage on board a Dutchman bound to Amsterdam; but meeting at Sea with a Sloop bound to Lyme, they were put on board her, and so arriv'd here on Sunday Night.

The chief Mate finding a Possibility for the rest of the English Prisoners to make their Escape also, wrote to Capt. Finny and his Companions proper Directions; accordingly they made an Attempt and succeeded; six of whom stoln Capt. Wilson's Yawl from the Privateer, and came to Bayonne, pilot'd thither by French Fishermen, on Promise of having the Boat: Four others and a Boy follow'd their Example, and came off in another Boat, but the Four Men were unfortunately drown'd; and the Boy being thrown by the Waves on some Rock, was luckily taken off by some French Fishermen. — The rest got safe to Bayonne by Land; several of whom made their Way from thence to Bordeaux, &c.

## LONDON.

Yesterday's French Mail brought Letters from Bourdeaux, dated the 16th Instant N. S. advising that a Spanish Privateer had brought into St. Sebastian's a Sugar laden Sloop of about 100 Tons from Jamaica [but we rather suppose her the Dorothy Brig, Douglas, from Antigua for London, who has been some time missing]; and the Townshend Packetboat, Capt. Cooper, bound from Li-bon to Falmouth, said to have 1500 Moymores in her. She had but 10 Guns and 23 Men, and the Privateer 24 Guns and 180 Men, yet defended herself for some Hours, killing several Spaniards; but having lost some of her own Hands, and being borne down by Numbers, she was forc'd to submit.

We hear from Dublin, that the Week before last died suddenly in the County of Clare in Ireland, George Purdon, Esq; High Sheriff of the said County, whose Death is much lamented:

That a Fire had broke out in the Town of Wexford on Saturday Sc'nights, which in a short time consumed upwards of 50 Houses, and did other considerable Damage: And,

That a Shower of Blood had fallen on Sunday Sc'nights in the Evening at Rathfarnham near Dublin, at which several were startled fearing it might portend something hurtful to these Kingdoms. [These seeming Showers of Blood are sufficiently accounted for in a Natural Way in Derham's Physico-Theology.]

We hear from Derby, that on Monday last two Waggon being loaded there with 24 Bags of fine Flower belonging to Mr. Wm. Evans, Mr. Isaac Turner, &c. in order to be sent to Leek in Staffordshire, the populace arose, pursued and overtook the Waggon about two Miles from Derby, brought them back in Triumph into the Market-place, and there cut open the Bags, ransack'd and carry'd away, in Aprons, &c. so that notwithstanding all the Endeavours of the Mayor and Justices to prevent them, not above two Bags were preserved.

Some time since died at Jamaica Matt. Concannon, Esq; his Majesty's Attorney General for that Island.

1581

Last Week above 50 Chells of Arms were deliver'd from the Office of Ordnance, and shipp'd for the Isle of Wight.

Yesterday died in Warwick-street St. James's, Mrs. Hatton, a Maiden Gentlewoman, possessor of an Estate of 500l. per annum.

Yesterday Rich. Welch was committed to Newgate by Sir Edward Hill, for stealing out of the Middle Temple Hall a large Silver Salver, the Gift of Sir Edmund Saunders late Lord Chief Justice of England to the Society of the Middle Temple. The same was found in his Custody much defaced; and he was first detected by one Mrs Ireton a Pawn-broker.

Yesterday was held a Board of Admiralty, when their Lordships were pleased to appoint Capt. Limeburner, of the Hawk Sloop, to be Captain of the Sea-horse, a 20 Gun Ship.

Yesterday Morning about one o'Clock a Fire brake out in the House of Mr. Randal, a Cheesemonger in Plumtree-street, St. Giles's, which entirely confund'd that House and the next to it, and damag'd several others. Mr. Randal and his Family narrowly escap'd with their Lives, the Fire burnt so fierce; so that they had no Time to save any of their Goods, nor even any of their Wearing Apparel.

This Day the Right Hon. the Lord Cathcart sets out for the Isle of Wight, in order to embark with the Marines, &c. on the intended Expedition.

On Sunday last William Mackenzie, Esq; was flung from his Horse, as he was returning from the Camp on Hounslow-heath, whereby he fractur'd his Skull, and his Life is despair'd of.

The most excruciating Rheumatism, and all Rheumatic Pains, fix'd or wandering, in the Limbs or Parts, infallibly, and instantly cur'd without pain, or the least Trouble or Disorder,

BY incomparable Chymical Distemper; for they immediately restore a due and equalization to the Fluids in the minute Canals, by expelling the viscid Humour which occasions all the Torture, and that all Manner of Pain, though ever so violent, quickly vanishes, to the admiration of all who have taken them; could not believe it in the Power of Medicine to sudden, and seemingly miraculous Ease, till having been witness'd by their own Experience.

Hundreds who had been miserably afflicted with the rheumatis many Years, and try'd most other Remedies, have been instantly cured by these most excellent Drugs, and never once known to fail. They are agreeable to taste, and for Safety might be given to an Infant; and are only at Jacob's Coffee-house against the Angel and Tavern in Broad-street behind the Royal-Exchange, in a Bottle, with Directions.

**ANTI-SYPHILICON**

THE only short and most effectual Cure in the Universe for the Variolous Disease, from the slightest Infection to the most extreme Degree of it, even when the Blood and Joints are roughly contaminated with its malignant Virtue, and the Bones are affected with it.

Fresh Injections, call'd Quicks, with all their Symtoms, tho' ever so severe, are entirely cured in a few Days, and so effectually as to prevent the Juices from being tainted with any remains on one Hand, or a terminal Gleet or Weakness on the other.

And the most inveterate Degree of the French Disease attended with Nocturnal Pains, universal Head-ache, and all the other most exasperated Symtoms, are overcome by it, and effectually and much sooner red by Salvation, Inunction, or any other whatever, and in so easy and pleasant a Manner, as to bespeak it the only opposite Remedy to the Antidote in the World; and this some Thousands of Miles off, where they have been contriv'd, and contriv'd in vain.

It is pleasant to take, occasions no Sickness, and requires Confinement, but may be taken, and be accomplish'd, without the Knowledge of the Patient.

Those who suspect they have received an Injury by only a Dose or two of it, be perfectly free from Apprehensions; for it suffers no lurking Venem in the Body, but wholly extirpates it Root and Branch.

All such likewise as doubt they have some remainders of former Injuries, may by a few Doses of it remove themselves from all Suspicion of that Kind; for it cures no Foulness, Corruption, or Putrefaction whatsoever, main in the Fluids, or to adhere to the Solids; nor Account, in all scorbutick, seropulous, and eruptive Eruptions or Foulnesses of the Skin, Glandules, and Impurities of the Juices, it does more by far than any other Medicine yet known can do.

The Price of this most Noble Anti-Syphilitic is Six Shillings a Pot, which, considering its extraordinary efficacy, one Pot only being sufficient to make Cures, is not a tenth Part of its Value, and is pointed by the Author to be had only at Mr. Rose's Toyshop, at the Rose and Crown against St. Paul's Church-Yard in the Strand, ready sealed up with the Instructions, by the Perusal of which, all Persons ever affected with any Degree of the Venereal Disease perfectly understand their own Condition, and know when, and when not, the Venereal Poison is rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Syphilitic.

The uncommon Success, near Forty Years last past, so much famed and only true Original

**ROYAL CHYMICAL WASH-BALL**

FOR beautifying the Face, Neck, and hands.

Hands, hath induc'd many Envious Persons to sell a Counterfeit White Ball (which may prove pernicious as well as ineffectual) in Imitation of the true.

To prevent as much as possible any Mistakes in buying our Customers, we give this special Notice. That the Sort are now sold only at Mrs. King's Toyshop, the Blue Boy, against the Crois-Keys Tavern in Cornhill; and Gilpin's, a Miliner, at the Blue Ball, near the Iron Gate in Fleet-street. Price 1s. each Ball, or 1s. to the dozen, but no Allowance for less than 1s. Balls at a Time, as they ever be sold any where else, except Notice be given in these Advertisements of it.

Their true and real Virtues have been sufficiently proved all the Years that they have been Sold by Publication, and more so, as they are still more than ever used and applied, both Sexes of the best Quality, and many Thousands of them, and others, for making the Skin so delicately soft and smooth, as not to be paralleled by any Wash or Wall-ball, as Kind or Form; for these Balls are indeed real Beauty-Skin, by taking off all Deformities, as Tetter, Ring, Morpheus, Sunburn, Scurf, Pimpls, Pits, or Keloids, &c. Small-Pox, and keeping it of a lasting and extremate Sharpness, and when they soon alter red or rough Hands, are admirable in the Head, not only giving a most exquisite Sharpness to the Razor, but so comfort the Brain and Nerves, as to prevent catching Cold. They are of a grateful and pleasant Taste, without the least Grain of Mercury, and may be used without their Safety.
